

eakf_analysis

```
graph LR; A[eakf_analysis] --> B[get_local_observation_data]; B --> C[k];
```

A flowchart with three rectangular boxes connected by arrows. The first box, labeled 'eakf_analysis', is shaded gray. A dark blue arrow points from its right side to the second box, labeled 'get_local_observation_data', which is white. Another dark blue arrow points from the right side of the second box to the third box, labeled 'k', which is also white. All boxes have a black border.
